

**Standard/Raised Floor Walls**

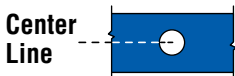

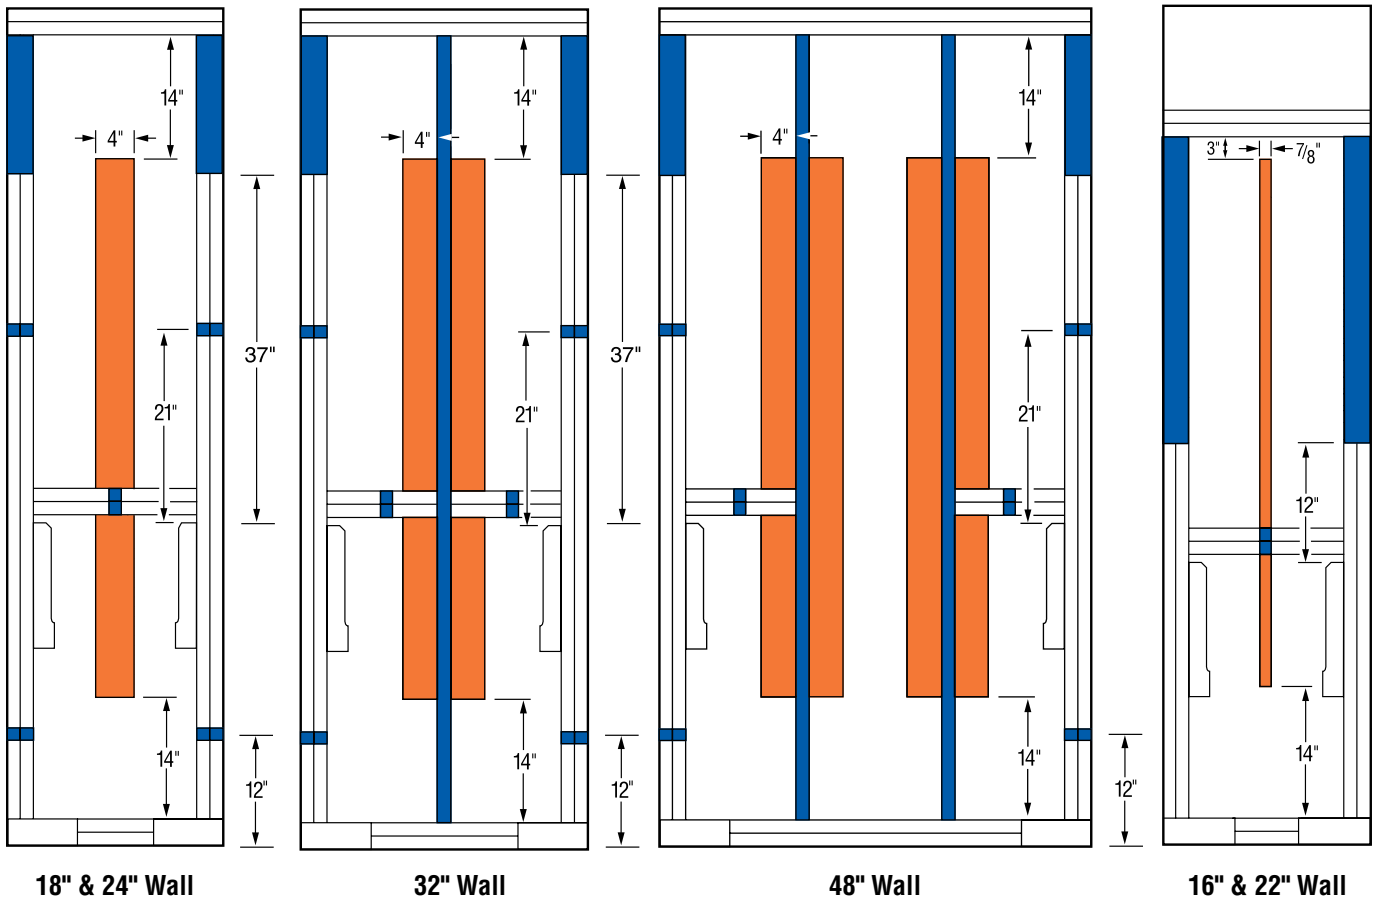

**4" maximum square cutout allowed in red area.**

**Only one cutout per wall!**

**Three 1" diameter holes predrilled in top plates — No additional holes allowed.**

**Portal Wall**

**7/8" diameter maximum hole allowed in red area. Only one hole per wall!**

**For all walls: 1" diameter maximum hole allowed in blue areas. Only one hole in member!**

For interior wall locations: The direction the sheathing faces should be determined with input from the other trades. This may reduce the need for penetrations in the sheathing.

**Colors on label are not on actual wall.**
