

General Notes	6-7
A Basic Interpretation of the Code	8-9
How to Use This Design Guide	10-11
Wall-Bracing-Replacement Jobsite	
Categories for IRC	12
Wind and Seismic Map for IRC	12
Wall Bracing Design Example	13

STRONG-WALL® PRODUCT DATA BY APPLICATION

Garage Front	14-15
First Story on Foundation	16
First Story on Wood Floor	17
Two-Story Stacked	18
Balloon Framing	19

WIND BY APPLICATION

Garage Front	20-21
First Story on Foundation	22
First Story on Wood Floor	23
Two-Story Stacked on Foundation	24-26
Two-Story Stacked on Wood Floor	27-28
Balloon Framing on Foundation and Wood Floor	29

SEISMIC BY APPLICATION

Garage Front	30-31
First Story on Foundation	32
First Story on Wood Floor	33
Two-Story Stacked on Foundation	34-35
Two-Story Stacked on Wood Floor	36
Balloon Framing on Foundation and Wood Floor	36

SEISMIC WITH MASONRY VENEER BY APPLICATION

Garage Front	37-41
First Story on Foundation	42
First Story on Wood Floor	43
Two-Story Stacked on Foundation	44
Balloon Framing on Foundation	44

ANCHORAGE SOLUTIONS BY FOUNDATION TYPE

Slab on Grade	
Garage Curb	46-48
Slab Edge	49-51
Additional Post-Installed Adhesive	
Anchorage Solutions	52
Brick Ledge	
Garage Curb	53-55
Slab Edge	56-58
Additional Post-Installed Adhesive	
Anchorage Solutions	59
Concrete Stemwall (<i>Anchorage into Wall</i>)	
Garage Front	60-62
Perimeter	63-65
Concrete or CMU Stemwall (<i>Anchorage into Footing</i>)	
Garage Front and Perimeter	66-68
Additional CMU Garage-Front Requirements	69

ANCHORAGE PRODUCT INFORMATION

Post-Installed Anchorage	70-71
Cast-in-Place Anchorage	72-73
Steel Strong-Wall® Anchor Templates	74
Wood Strong-Wall® Anchor Templates	75

INSTALLATION INFORMATION BY WALL TYPE

Steel Strong-Wall®	76-78
Wood Strong-Wall®	76, 79-80

ADDITIONAL DESIGN DATA

Steel Strong-Wall® Allowable Out-of-Plane and Jamb-Stud Loads	81
Wood Strong-Wall® Allowable Vertical and Out-of-Plane Loads	82
Wall-Bracing-Replacement Jobsite Categories for IBC Section 2308	83
