

APPLICATIONS: CRATING

- Fast, precise and consistent screw driving
- Precise depth settings help prevent wood splitting
- Reduces labor, waste and expense

Quik Drive auto-feed screw driving systems save time when building crates because they enable accurate screw placement, hands-free fastener advancement.

PRO250 System

PRO250

PRO250 System

Applications: Crating, fiber-cement siding, wood underlayment, subfloor/sheathing

- Expanded depth settings for high-density materials
- Uniform toenailing and countersink on slick surfaces
- Reversible and replaceable non-skid teeth attachment
- Details, pg 36
