

# Product Information

The Strong Frame ordinary moment frame is a factory-built moment frame consisting of two columns, a beam and a connection kit. The columns are anchored to the foundation using anchor bolts and are connected to the beam using high-strength bolts. The 196 available sizes of the Strong Frame moment frame are created by combining various sizes of columns (in pairs) with various sizes of beams. Columns are 6", 9", 12" and 15" wide and beams are 8½" and 12" deep (dimensions do not include wood nailers).

## Strong Frame Ordinary Moment Frame Models by Opening Width and Nominal Height
