

Connector Selector Software

Free, easy-to-use connector selection software!

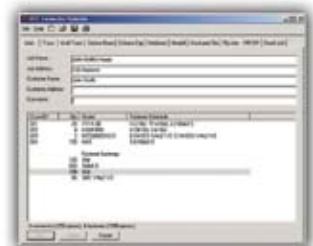

The Connector Selector finds the products that are appropriate for your connection, then sorts them by lowest installed cost. Available in US (Allowable Stress Design) and Canadian (Limit States Design) versions.

Includes:

- Joist and header hanger solutions for commonly-used solid sawn lumber, engineered wood and structural composite lumber, glulam beams and wood trusses.
- Roof connection solutions for rafters and trusses, including hurricane ties, twist straps and heavy girder tiedowns.
- Column caps and bases, holdowns and mudsill connectors.
- Connection requirements for fastening multi-ply members together using Simpson Strong-Drive Screws.

Key Features:

- Finds lowest cost connector.
- Automatically applies connector load adjustment factors for modifications (i.e. slopes, skews, etc.) and specifies proper model numbers for easy order placement.
- Highlights stocked or preferred hangers.
- Built-in Job List saves, exports and prints solutions, including fasteners!
- Links to product catalog page for additional reference.
