

Auto-Feed Screw System For Concrete Forms

Increase productivity with the Quik Drive® PRO250G2

The Quik Drive PRO250G2 screw driving system is an ideal solution to save time and effort when constructing concrete forms. The auto-feed design uses collated screws to enable quick and easy fastening of forming panels. The tool extension allows stand-up driving for more efficient positioning and installation of screws.

Features:

- Enables stand-up driving to save time and reduce worker fatigue
- Auto-feed attachment has non-skid nose for increased stability
- Expanded depth settings for high-density forming materials
- Uniform angled fastening and countersink on slick surfaces
- Work with or without the extension
- Limited lifetime warranty

WSC

1½", 1¾", 2" Lengths

WSNTL

1¾", 2", 2½" Lengths

System includes everything you need for fast, easy driving (screws not included)

- 2,500rpm DeWalt® or Makita® screwdriver motor
- Auto-feed attachment
- Extension for stand-up driving
- Quiver for keeping screws at your fingertips
- Tool case
